## INTERNSHIP

**Pentaomnia Pvt Ltd** Feb' 24 - Feb' 25
*Frontend Developer*

- Engineered a React-based EdTech platform using reusable component architecture.
- Streamlined Git workflows reducing release cycles by 25%; improved frontend performance by 40% via lazy loading and asset optimization.
- Integrated analytics dashboards backed by PostgreSQL APIs.
- Translated Figma designs for Nirmaan (EdTech platform) into a pixel-perfect Next.js implementation using React and TailwindCSS.

## PROJECTS

**Journal** | *Next.js 15, TypeScript, PostgreSQL, AWS (RDS, S3, Cognito), Terraform* | link Mar' 26 - Present

- Delivered edge-cached rendering via Next.js router with ISR, reducing median page load time by 55%.
- Structured PostgreSQL schema on AWS RDS handling 10K+ posts and metadata with indexed queries.
- Defined Terraform modules provisioning RDS, S3, and Cognito, enabling reproducible infra setup.
- Enforced Cognito-based access control with fine-grained S3 policies, securing admin workflows.
- Tracked real-time blog metrics with event-driven updates, displaying likes, views and comments.

**Eastore.xyz** | *Next.js, TypeScript, PostgreSQL, TypeORM, TanStack, IPFS, Filecoin* | link Jan' 26 - Present

- Implemented decentralized file management integrating application metadata with Filecoin, IPFS storage.
- Modelled scalable folder hierarchies using adjacency-list schema enabling recursive traversal.
- Eliminated N+1 database queries via in-memory folder metadata mapping.
- Introduced caching and request deduplication reducing redundant on-chain metadata fetches.
- Crafted an interactive product tour using React Joyride to onboard new users with step-by-step in-app guidance.

**Pentaomnia.com** | *Next.js, TypeScript, TailwindCSS* | link Feb' 24 - Aug' 24

- Engineered a Next.js frontend using component-driven architecture for consistent layouts.
- Developed interactive, media-heavy sections including event carousels and image sliders.
- Optimised rendering and asset handling to reduce cumulative layout shift.
- Managed deployment and static asset delivery on Hostinger.
